Handmade 3D Kirigami Pop Up Cards

Artist's Statement

From a young age, I had a love of scrapbooking and paper dolls. I loved working with paper and designing art. I hand cut my first cards with a cuticle scissor.

Now, I use a computer program, I-CAD and design my cards. I rent a high end laser cutter in Tampa and cut all the paper. Finally, I assemble the cards. It is a time consuming process but enjoyable for me. The lightbulb went on, when I realised it was all math that went into making my cards.

Many people have heard of origami which is folding paper. Kirigami is cutting paper.

My cards are special ones that people will keep and cherish...and I hope you do to!

Enjoy KoriAnn!

Contact Information

If you are interested in purchasing a greeting card, email KoriAnn at koriann designs@gmail.com or visit her website: www.koriann designs.com to place an order and view more designs and categories.

Orders will be delivered at the end of this show. Questions? Leave her a message at 303-859-5566.
